

The instant asset write-off scheme applies to new and used Cat[®] generators and engines.

Purchase any Cat power systems from EPSA up to the value of \$150,000, and the instant asset write-off threshold of \$30,000 applies to each asset you purchase.

The entire cost of the asset must be less than the instant asset write-off threshold.

Whether the threshold is GST exclusive or inclusive will depend on your GST status, and you are best confirming with your accountant and the Australian Tax Office.

On top of this, you can still finance your package up to \$150,000 through Cat® Financial. Talk to us today for a proposal.
