**Energy Power Systems Australia (EPSA) introduces the new range of Cat® Battery Energy Storage Systems (BESS) designed to meet the requirements for off and on-grid applications. Based on lithium-ion batteries, these portable products are ready to supply power in the most demanding situations.**

Cat® BESS units are a mobile battery energy storage solution that supplements traditional mobile power solutions to help reduce noise, enable deployment of renewable energy sources, and enhance generator efficiency. Designed for rapid plug-and-play installation and integration, these Cat® BESS units can be used with any combination of diesel, natural gas, or renewable energy sources such as solar or wind.
